

Technology and Internet Acceptable Use Policy
For
All School Employees
and
Students and Grades 6-12
Diocese of Richmond
_____ **School**

Technology is an essential educational tool whose use must be grounded in the values and mission of Catholic education. All users, **faculty, staff, administrators, and students**, are expected to exhibit high standards of behavior at all times when using the Internet, email and other technology.

The use of the School's network and the Internet is a privilege, not a right. The use of computer systems and the Internet at School must be in support of the educational mission and objectives of the Diocese of Richmond and of the School. Inappropriate use may result in cancellation of those privileges. Based upon the Acceptable Use Policy guidelines in this document, the Principal will deem what is inappropriate use and his/her decision is final. In addition, the Principal has the right to close an account at any time. School authorities may take other disciplinary actions for any unacceptable behaviors. The administration, faculty and staff may request that the Principal deny or revoke specific user access. Additionally, the cost of any repairs caused by inappropriate behavior will be the responsibility of the student and his/her family.

Prior to being given access to the School's computers and Internet, all staff members, as well as students in grades six through twelve and their parent(s) (when student is under the age of 18), must return the signed Technology and Internet Acceptable Use Contract. Students in grades K-5 will return the Computer and Internet Promises form. These agreements will be completed every year.

System users at School have no right to privacy and should have no expectation of privacy in materials sent, received, or stored in School-owned computers or on the School network. All communications (including email) and information accessible via the network is School property. Messages relating to or in support of illegal activities may be reported to authorities. The technology coordinator/system administrator supervises the use of the network by students and school personnel. He/she has access to all files and email and may authorize access as necessary.

Security on our computer system is a high priority. Anyone with reason to suspect a security problem on the School network must notify an appropriate authority.

At School, the faculty and staff blend thoughtful use of computers and the Internet throughout the curriculum and provide guidance and instruction to students in their use. The School provides controls and filtering protection on the School's network. Outside of School, families bear responsibility for the education and monitoring of their students in Internet and computer usage much as they do with television, telephones, radio, movies, and other media. The School may not be held responsible for users' intentional misuse of the Internet or equipment.

Acceptable Computer and/or Internet Use

Computer and Internet Promises
For
Grades 1 - 5
Diocese of Richmond
_____ **School**

Introduction

The use of the computers and the Internet at the School must be for learning. We believe that using technology to learn is an important tool as long as students act responsibly.

Computer use is a privilege, not a right, and improper use will result in losing those privileges. The Principal will decide if improper behavior has occurred and whether computer privileges are to be taken away. His/her decision is final.

When you use the School's computers, the Principal and other adults have the right and ability to look at your files and activities. Make sure that what you put in the computer system is courteous, legal, and acceptable.

Security on our computer system is important. If you see anyone trying to use other people's work or trying to go to areas that are not allowed, it is your responsibility to notify the teacher.

Just like parents monitor what you watch on television, see at the movies, listen to on the radio, or talk to on the telephone, the School will provide guidance on what is proper and teach you how to use the computers and Internet in a responsible way.

Your Promises

Using the computer and Internet correctly and responsibly is very important. I promise to follow these rules.

1. I PROMISE to use all equipment carefully and not intentionally damage or destroy it.
2. I PROMISE not to tamper with the software or network.
3. I PROMISE to use the computers and Internet for School work only and use only the programs and websites that my teacher has approved.
4. I PROMISE to keep my password to myself and not to share it with others.
5. I PROMISE not to use someone else's password.
6. I PROMISE to be polite and not to use any language or pictures that are hurtful to others.
7. I PROMISE to give credit to others when I use their words or ideas.
8. I PROMISE to obey copyright rules.
9. I PROMISE to use only my own files and/or folders and never to trespass into someone else's.
10. I PROMISE to tell my teacher if I see something on the computer that is inappropriate.
11. I PROMISE to ask for help when I don't know what to do and to print only when my teacher tells me to.
12. I PROMISE not to reveal my address, phone numbers, or any personal information about me on the Internet.

I understand that if I do not use the computers or Internet responsibly or if I break my promises that there will be consequences. I will sign my name to show that I will follow the rules and keep my promises.
